thanks to Chief Moran and Police Lt. James A. Santos who spent many hours checking out various models of ambulances; to Officer Joseph "Skip" Faulkner and Lt. Santos for the many hours spent changing over the radio and other equipment from the old ambulance, and to Officer Kenneth Pacheco of Village Signs for lettering the ambulance.

The chairman also announced a second anonymous donation of $450. to be used to purchase "something needed in the ambulance". The decision was reached by the Chief and Santos to purchase a super bilateral splint which will permit two broken legs to be set at the same time. A couple of smaller donations will be used to purchase equipment, said DeCosta.

The ambulance, a Pioneer III model, purchased from Yankee Coach of Palmer, Mass., is now certified and in operation. The ambulance was called into action on its first day - Tuesday, during the Selectmen's meeting.

The old 1977 ambulance will be sold to a private individual with proceeds used to purchase new medical equipment. After speaking to Lt. Santos and viewing the inside of the new ambulance, town residents should be very proud of the "special donor". and of their fellow town residents for the well equipped ambulance and a feeling of confidence in its capabilities.

Mattapoisett Selectmen's Meeting

JANUARY 6, 1987-by VIRGINIA ARRAL

WILL CONSIDER TOWN BY-LAW TO BAN NUDE DANCING

Town Counsel Donald J. Fleming informed Selectmen by letter last Tuesday of a 1986 United States Supreme Court decision that towns and cities have the authority to adopt a by-law prohibiting nude dancing in establishments where the local authority also controls the liquor licenses. He recommended the Selectmen should consider adopting such a by-law.

Attorney Fleming noted that at one time Mattapoisett had a problem with nude dancing in one of its liquor establishments; and it may well be that the Board will wish to adopt the by-law made possible as part of the 21st amendment. The City of Newport, Kentucky brought

a liquor establishment to the United States District Court to ban nude dancing and the town was upheld. The club appealed and the District Court's decision was reversed. The city, in turn, took its case to the United States Supreme Court, where a decision made on November 17, 1986 permitted the regulating authority regarding liquor to also regulate nude dancing.

Selectmen agreed to discuss the subject with town counsel before making a decision. They noted there was a problem at one time, but that there has been no recurrence for many years.

In other business, Selectmen:

MET WITH Plumbing Inspector E. Robert Garde who informed them there are about 30 or 40 commercial businesses in town who have not kept up with the plumbing regulation requiring two separate toilet facilities (male and female) when the business covers more than 500 square feet. He said that under 500 square feet only one facility to be used by both sexes is required. He noted this 1971 state law is being ignored and technically, the state can come down and close them.

The problem, Garde said, is because many of these small businesses

are growing and adding more employees and expanding their premises. Some of the problems arise because the Zoning Board of Appeals has granted permits to places with no facilities, but has allowed the owners to use facilities in a building next door. The Zoning Board of Appeals does not have the authority to allow this next door use -- they can make stricter rules but they cannot make less strict rules. Preserving Green Space

"OPEN SPACE PLANNING AND LANDBANKING"

On Saturday, January 24th, the Marion/Mattapoisett Area League of Women Voters will sponsor an informational meeting, "Open Space Planning and Landbanking".

As Marion/Mattapoisett and most other communities face increasing housing and business development, with destruction of woodlands and other open space, the need is urgent to find ways to preserve some of the remaining green space.

For many communities, landbanking has provided funds for the purchase of open space for the enjoyment of all residents and for aquifer protection. Landbanking enables a community (with legislative approval) to assess a small fee (.05 up to 2%) of the selling/purchase price

of real estate (land, house buildings). This revenue is used to purchase undeveloped land to preserve the character and beauty of a town. Landbank legislation was passed in Massachusetts House of Representatives, and was pending in the Massachusetts Senate in 1986. It will be reintroduced in 1987.

Kelly McClintock, Executive Director, Environmental Lobby of Massachusetts, will be the main speaker. He is an expert in landbanking and was active in promoting the 1986 legislation.

Elizabeth Brainard, President, Sippican Lands Trust, will speak about their activity and goals in Open Space Planning. The Marion Conservation Commission is also interested in finding ways to preserve open space.

We would hope to hear all points of view about landbanking, and urge all residents to attend.

The meeting will be held at St. Gabriel's Hall at 9:30, speaker; 9:00, coffee.

Mattapoisett Cub Scouting

THE BLUE AND GOLD

Scouting is alive and well and growing in Mattapoisett. A rebirth of interest has Troop 53 with nearly 60 boys, the Tiger Cubs being the youngest at 6 years of age.

Three new dens have been added to accommodate the new Cub Scouts. Most of us are new leaders as well, and are learning with the boys.

Paul Amoruso is the committee chairman, and is also doubling as Scoutmaster for the pack meetings. He's doing a terrific job in both rolls, but his search for a full-time Scoutmaster continues. Anyone interested in this rewarding position can contact Mr. Amoruso at 758-3726.

Being a fairly new troop, our funds are a bit low. We are brainstorming for fund-raising ideas and are looking to you for support in the future. Cub Scouting is for the whole family and neighborhood of families.

The townspeople of Mattapoisett have always rallied for their children and I know that the Boy Scouts will be one of their priorities.

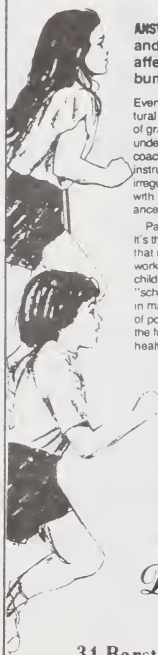
QUESTION:

WHY SHOULD CHILDREN HAVE CHIROPRACTIC SPINAL MANIPULATION?



ANSWER: Because growth and development can be affected by minor bumps, jars and falls.

Every year, thousands of structural health problems in students of grade and high school level go undetected even though teachers, coaches and physical education instructors watch for health irregularities which might interfere with a child's physical performance and learning ability.

Part of their jobs? Not really. It's that extra sense of dedication that makes these already overworked public servants give children that extra attention. The "school guardian" is responsible in many cases for the detection of potential health problems and the funneling of children to proper health authorities.

What most people don't know is that most health problems are far too complex for the teacher to note. And with a busy schedule, the educator can't be expected to have the time to screen problems that are beyond his or her scope of training, no matter how conscientious the teacher may be. The result: many children have health problems that retard their ability to learn or engage in sports effectively.

Here's what you can do:

- Parents should be urged to take more responsibility for their children's health.
- Parents and teachers should be alert to such things as changes in energy level, postural changes, moodiness, listlessness or any unusual signs that signal a problem that will impede learning. One of the observable signs is lack of interest in school activities.
- The structural balance of the child's body should be considered. The school teacher will no doubt note the child's posture, but that does not always indicate the structural integrity of the body. Comprehensive chiropractic examinations, including examinations of the spine, pelvis, neck and limbs should be recommended to avoid developmental problems.
- Incorporate posture awareness programs into your class projects. Write for suggestions and materials.

It's Time to Say Thanks

When we opened our doors in October of 1985, we had a concept. We believed that, if we treated people fairly, provided help where and when it was needed and stocked ONLY those cameras, lenses and accessories which offered the customer TOP value for his money, people would respond. To say you did would be the understatement of the year. Our business has grown steadily and December was simply unbelievable. As the New Year begins, we want to say "Thanks" and re-state a promise: at THE SHUTTERBUG, you will not find everything available on today's market. Part of the reason is that we are too small to be able to deal in every brand. The MAJOR part, however, is that we are sticking with our policy of staying away from inferior products, over-priced merchandise and those items which give you, the customer, less than he should get for his photographic dollar. We believe in what we sell and we stand behind every item, large or small. If that makes sense to you (and your response indicates it does) we'll look forward to serving you in 1987. In the meantime ... again ... THANK YOU, VERY MUCH.

ORR Chess

The ORR Chess Team defeated Dartmouth High School by a score of 3-2 to raise its record to 3-0-0 for the 1986-1987 season. Winning for ORR were: Erik Sylvia (captain), Erik Bjerre and Nat Everett. This was the 33rd consecutive league match for ORR without a defeat. According to Mr. Cameron, Chess Team Advisor, "The team is struggling this year. We've been winning, but we haven't been able to come up with solid games from five players to date. We haven't yet come up with that combination of five 'sure' starters and I am concerned." The next match is scheduled away against Martha's Vineyard.

Early Childhood Advisory Council

PROJECT "B.U.D." COMMUNITY SURVEY

The joint Early Childhood Advisory Councils of Marion, Mattapoisett, Rochester and the Old Rochester Regional School District are preparing a community-wide survey. This survey will seek to identify all services and programs currently being provided to young children and their families in our area. It will also solicit citizens' ideas on what additional services and programs are needed.

A wide variety of early childhood programs and services are emerging to meet the needs of the changing American family nationwide. Among these are programs for three and four year olds, pre-kindergarten, full day kindergarten, before and after school child care, pre-school special needs programs, and educational programs for parents/caregivers/babysitters. These programs and services are being offered in a variety of settings (both public and private) and being funded privately as well as through tax dollars. Many combine public and private support. For example, some before and after school child care programs are located in local schools but paid for by the users.

The survey will be mailed to families in the three towns with children age six and younger to determine what services and needs exist in our

Additionally, the survey will be mailed to a random sampling of citizens in the three towns to determine how the general community feels about needs and services for young children and their families. The opportunity to express whether programs should be located in local schools or private settings is included in the survey. Also, there is the opportunity to indicate whether programs and services should be funded through local school budgets or through private funds.

The information gathered through this project will be compiled in a report that will be presented to the school committees. Based on each committee's decision, a subsequent proposal may be developed to respond to identified needs.

The surveys will be mailed out January 22nd and are due back to the Superintendent's Office by January 30th. It is hoped that all those receiving the survey will take the time to complete it. Antique Show

AT NORTON MIDDLE SCHOOL

Norton's Land Preservation Society is preparing for its 12th annual Antiques Show and Sale, to be held Saturday and Sunday, January 17th and 18th, at the Norton Middle School on Route 123.

"This year's show will sparkle more than ever," Land Preservation President Suzanne Eriksen said, "with a special collection of early American pattern glass to be displayed by Frog Hollow Antiques of Mansfield and the addition of two Sandwich glass specialists to our roster of 56 exhibitors."

New to the show will be Vince Hinman and Richard White of Dennis, MA. with colored and clear glass made in the early factories of Sandwich, MA., and Sara Sampson of Deep River, CT. who will have early lamps created by the Sandwich artisans.

Antique collectors will also find booths filled with early pottery of American and European origin, rugs, quilts, paintings, clocks, toys, and other early accessories to complement the many pieces of 18th and early 19th century furniture.

The Land Preservation Society will provide showgoers with luncheon specialties including soups, sandwiches, and home-baked desserts. LPS will also benefit from a drawing on a Boston rocker. Proceeds from the show are used for the purchase and protection of Norton wetlands and woodlands. The show is professionally managed by Country Cape Antiques Shows.
